

VONWILLINGH ONLINE

Custom web applications & websites for South African businesses

WEBSITE / WEB APP DISCOVERY MEETING BRIEF

admin@vonwillingh.co.za · 081 216 3629 · <https://vonwillingh.co.za>

Use this brief in the discovery meeting. Tick what applies, fill blanks, and capture enough detail to prepare an accurate quotation afterward.

1. Meeting details

Meeting date: _____

Prepared by: _____

Client attendees: _____

VonWillingh attendees: _____

Project working title: _____

How they found us: _____

2. Client & business

Legal / trading name: _____

Industry / niche: _____

Primary contact: _____

Role / title: _____

Phone / WhatsApp: _____

Email: _____

Business address / service area: _____

Existing website (if any): _____

Social media: _____

Competitors or sites they admire: _____

What does the business do? (1–2 sentences)

Suggestion: Ask who their ideal customer is and what a “good month” looks like — it shapes homepage messaging and CTAs.

3. Project type (scope path)

VonWillingh builds starter / brochure websites and full **custom web applications** (see vonwillingh.co.za). Confirm which path fits — or a phased plan (site first, app later).

- ☐ Starter / brochure website (info site, branding, contact & lead capture)
- ☐ Business website with extras (gallery, blog, bookings, basic shop, etc.)
- ☐ Custom web application (logins, dashboards, workflows, databases, integrations)
- ☐ Phased: launch a website now, plan a custom app later
- ☐ Unsure — need recommendation after discovery

If custom web app: what problem should the system solve?

- ☐ Staff / admin portal
- ☐ Client / customer portal

- ☐ Bookings / appointments / jobs
- ☐ Quotes, invoices, or CRM-style tools

☐ Inventory / stock / orders

☐ Payments / subscriptions

☐ Integrations (WhatsApp, PayFast/Ozow, Xero/Sage, Google, other)

Other systems they use today: _____

Suggestion: *Custom apps are for when they outgrow a brochure site — e.g. staff logins, automated workflows, or a live cloud system (Next.js, Supabase, Vercel).*

4. Goals & success

☐ Generate leads / enquiries

☐ Take bookings or sell online

☐ Look credible / professional

☐ Replace manual admin / paperwork

☐ Inform customers (hours, services, prices, location)

☐ Other: _____

Primary goal (pick one): _____

Target audience: _____

Success in 3–6 months looks like: _____

Why do they want this now?

5. Brand & design

☐ Logo ready (vector/PNG preferred)

☐ Logo needs redesign / new logo

☐ No logo yet — include in quote

☐ Photos / video available from client

☐ Need stock photos / photo shoot advice

Brand colours (hex or samples): _____

Fonts / style words: _____

Reference sites they LIKE: _____

Reference sites they DISLIKE: _____

Suggestion: *Even a simple site should feel branded: logo, 1–2 colours, clear type, real photos of their work.*

6. Sitemap & pages (websites)

☐ Home

☐ About

☐ Services / Products

☐ Gallery / Portfolio

☐ Pricing

☐ Testimonials / Reviews

☐ Blog / News

☐ FAQ

☐ Contact

☐ Booking page

☐ Shop / Catalogue

☐ Other: _____

Estimated page count: _____

Homepage message / offer (what should visitors do first?)

7. Features & functionality

Usually included / recommended

☐ Mobile-friendly design

☐ Contact form (POPIA consent)

☐ Click-to-WhatsApp / click-to-call

☐ Google Maps / directions

☐ Basic SEO (titles, meta, sitemap)

☐ Google Analytics / search console

☐ SSL / HTTPS hosting

Optional add-ons (quote separately)

☐ Online bookings

☐ E-commerce / payments

☐ Blog / CMS for client editing

☐ Multi-language

☐ Newsletter signup

☐ Member / client login

☐ Custom web app modules (see section 3)

Suggestion: For most local businesses: mobile-first + WhatsApp CTA + Google Business + basic SEO beats a bloated feature list.

8. Content, domain & hosting

☐ Client will supply all copy

☐ VonWillingh to draft / polish copy

☐ Client supplies images

☐ Need help sourcing images

☐ Domain already owned — registrar: _____

☐ Need to register a domain

☐ Business email needed (@theirbrand)

☐ Hosting preference discussed

Domain name (have / want): _____

Who owns domain & accounts after launch? _____

9. Access & accounts to collect later

☐ Domain registrar login

☐ Current hosting / website login

☐ Google Business Profile

☐ Social media admin access (as needed)

☐ Analytics / ads accounts

Do not collect passwords in this form — arrange secure handoff after deposit.

10. Timeline, budget & decision

Ideal go-live date: _____

Hard deadline / event: _____

Decision-maker(s): _____

☐ Budget discussed (optional): under R5k / R5–15k / R15–40k / R40k+ / TBD

☐ Aware of starter website intro offer (from R1,999 once-off setup) — if eligible

Suggestion: Budget bands help scope honestly. Starter sites and custom apps are priced differently — confirm path before quoting.

11. Quotation checklist (internal)

☐ Project path clear (website / app / phased)

☐ Page count & features listed

☐ Brand assets status noted

☐ Content ownership agreed

☐ Hosting / domain / email included or excluded

☐ Care / support plan mentioned

☐ Out of scope noted

Proposal / quote due date: _____

Estimated complexity: Low / Medium / High

Notes for quotation

Agreed next steps

12. Meeting talking points (suggestions)

- We build hand-coded modern sites — not WordPress drag-and-drop templates.
- Starter websites: professional, mobile-friendly, branding, contact + WhatsApp, HTTPS hosting.
- Custom web apps: when they need logins, workflows, dashboards, or systems that replace spreadsheets/WhatsApp admin.
- Process: Discover → Build → Launch (training) → Support (care plan).
- After this meeting: written quotation with clear scope, timeline, and deposit terms.
- More examples & services: <https://vonwillingh.co.za>
